I am a dedicated and passionate web developer with extensive experience in designing and building dynamic, user-friendly websites and applications. With a strong background in both front-end and back-end development, I specialize in creating robust and scalable solutions that meet client needs and industry standards. My technical expertise includes proficiency in HTML, CSS, JavaScript, Node.js, Express, and database management with MongoDB/MySQL. I am adept at working collaboratively within a team as well as independently, consistently delivering high-quality results within deadlines. Committed to continuous learning and staying up-to-date with the latest technologies, I strive to innovate and improve in every project I undertake.

WORK EXPERIENCE

MERN stack developer
Webito infotech
07/2023 - Present

Achievements/Tasks
- Passionate and skilled MERN Stack Developer with extensive experience in building dynamic and scalable web applications.
- Proficient in MongoDB, Express.js, React.js, and Node.js, delivering full-stack solutions that meet complex business needs.
- Dedicated to writing clean, efficient, and maintainable code, ensuring high performance and security.
- Strong collaborative skills, experienced in working within agile teams to deliver high-quality products on time.

NodeJS devloper
Avrut solutions
07/2022 - 07/2023

- **Deployed** and managed applications on cloud platforms like AWS, ensuring scalability and reliability.

EDUCATION

Bachelor of Computer Applications
Veer Narmad South Gujarat University
08/2020 - 03/2023

SKILLS

C · C++ · NodeJS · ReactJS · NextJS · Javascript · TypeScript · mongoose · ExpressJS · Socket.Io · Html · Css · MongoDB · MySQL · Postgress

PERSONAL PROJECTS

Ecommerce website backend
- **Developed** and **maintained** a robust backend for an e-commerce platform, ensuring high performance and responsiveness to front-end requests.
- **Implemented** RESTful APIs for seamless integration with front-end and third-party services.
- **Utilized** technologies such as Node.js, Express, PostgreSQL/MySQL, and AWS for building a scalable and reliable backend infrastructure.

Library management
- **Developed** and **maintained** a robust backend for an e-commerce platform, ensuring high performance and responsiveness to front-end requests.

Project Name

Real-time Share Market Backend for Trading and Analytics
- This Share market backend provides real-time data on shares, allowing users to buy and sell stocks seamlessly . It features a comprehensive admin panel with support for multiple admin roles and a super admin, offering secure and flexible management of the platform. The backend ensures real-time transaction processing and supports efficient oversight of market operations.

Modern Matrimonial Platform for Meaningful Connections
- This matrimonial site is designed to help individuals find compatible life partners through an intuitive and secure platform. It offers personalized matchmaking, user-friendly profiles, and advanced search filters to connect users based on their preferences. The site prioritizes privacy and security, ensuring a safe environment for meaningful interactions.
